Big Concrete Bridge Finished Over Double Mt. Fork of Brazos

Good news keeps coming along on Highway No. 4.

Besides what was said in the Herald last week about the hardsurfacing of the highway from Hamlin to the Fisher County line, this week the contractors of the bridge over the Double Mountain Fork of the Brazos, about twelve miles north of Hamlin, say its finished. This means a new step in the civilization of the two or three counties that corner near where that bridge crosses the River.

The bridge has been under construction almost a whole year. That stream is perhaps one of the hardest to span, according to its size, in West Texas, especially at that point. The contractors have been forced to go deeper than was expected at first, to find a footing for the foundation. Then there were several delays because of high water and material and machinery being lost.

But the bridge is finished, and perhaps in a few days the abutments will be built up and travel will begin its trek and throughout the ages to come, unless an earthquake shakes it down, travel will continue to go north and south. A modern concrete bridge is supposed to last as long as the Double Mountain that have stood guard over Stonewall County and this part of the great West since the days the Dinosaur roamed the gulches and swamps on the edge of a great sea.

The Brazos River has been the dread of travel since the Indians camped up and down its bed. It was the jinks of the old timer ranchman, yet it sometimes proved their salvation in time of drouth. But from here out the passage of that River will be like gliding along Fifth Avenue. Not a jar, not a toe wet, maybe a whiff of sand will mar the traveler, but that bridge will be a lasting anchorage.

It is reported that a BIG JUBILEE is to be held between Hamlin and Aspermont in keeping with the momentous accomplishment. Somebody's fat calf might be killed and a general good time had by the "old rusty ranchers" and there let them draw pictures around a camp fire so that the modern "Upstarts" will catch a little of the "Glory" of a pioneer life. On with the Celebration. Let us know Boys, you fellows of the Committee. The Herald is "A rarin'" to help out.

SCHOOL NEWS

SENIORS

Oh my! The Seniors are such busy people this week. Getting ready for the round of entertainment during the holidays (sounds interesting, doesn't it?) is quite a job. Let's see! Miss Thompson and Mrs. Moody are giving the Seniors a Christmas party, Thursday, Dec. 19. Then, on the 27th, the three Senior classes of '34, '35 and '36 are having a reunion. Anyone else who would like to give the Seniors a party when they have no other social engagements of course, will please notify our sponsor.

Thursday at noon the Senior boys will be forced to give the Junior boys a good basketball spanking. It is a trifling matter that the Seniors must dispose of and the sooner the better. Those children just must be shown their place. Announcements concerning the winner will be in next week's paper, but, of course, anyone who knows those Seniors knows that the ball game is "in the bag."

Yours for a big score,
—Senior Reporter.

Entry fees will be: Singles, 25 cents; Pairs, \$1.00. Special prizes will be given in addition to the customary cash premiums.

BOY SCOUTS

Scout meeting was held last Friday night at the usual place and time. Mr. Carter, who is one of the committeemen of the Troop, dropped in during the meeting. A new boy, Hugh Longino, who joined three weeks ago passed his tenderfoot tests and became one of the many members of Troop 15.

Sunday John Lewis Norris passed the merit badge on Reptile Study and Tuesday night at Patrol Leader's meeting, Ted Longino passed the Merit Badge on Pathfinding. All the other Scouts are preparing and passing test for the Board of Review to be held on Friday, Dec. 13, and the Court of Honor on the 20th.

Saturday evening the new Scout library, containing over 150 books, covering all departments of Scouting, came in. This library was a present from the Lions Club to the Boy Scouts of Hamlin and is the only official Scout library in the surrounding towns. The Scouts and their leaders are unanimous in their thanks to the above mentioned club.

Mr. and Mrs. D. G. Patterson, of Galveston, are spending the week with Mr. and Mrs. Shannon at the Gravel Plant. Mrs. Patterson is a daughter of Mr. and Mrs. Shannon.

A little message on a pretty Christmas Card means so much. The Herald has some of the prettiest.

BOYS SCOUTS EXPRESS APPRECIATION

The Boy Scouts of Hamlin wish to extend to the Chamber of Commerce to the Lions Club and to the Rotary Club, their deepest appreciation for the Boy Scout Service Library. There couldn't have been a more useful or a more needed gift that would have eliminated the handicap that has been in the organization because of the lack of reading material. Now we are sure that each Scout will have a better opportunity to not only do his work better, but to enjoy the use of one hundred seventy-five volumes that go to make up the library.

During the past week, the Scouts have been working unusually hard in order to pass as many tests as possible. As a result there will be before the next Court of Honor, one Eagle Scout, as well as several applicants for second and first class, the Star and Life Scouting rank. Friday night, December 13, there will be a Board of Reviews held in the basement of the First Methodist Church.

The Scouts have placed five barrels in conspicuous places on the down town streets for people to deposit their old toys. These toys will later be repaired and distributed among the families where Santa Claus will not be available.

Some lovely Christmas Cards are ready for you at the Herald office. Don't wait.

APPEARING WITH HARLEY SADLER

THE JEFFRIES SISTERS, VAUDEVILLE ARTISTS

Harley Sadler and his company of entertainers will open a week's engagement her Monday night, Dec. 16, under the auspices of the Hamlin fire department. The tent will be located north of the A. & S. Railway Depot.

The company has all new plays this year, and some unusually fine vaudeville acts, which include the Jeffries Sisters, juvenile artists. Mu-

sic will be furnished by Dude Arthur and his 12-piece band. A new vaudeville feature that Mr. Sadler brings here this year is Odis Echols and his "All Star Texans," one of the original Stamps Quartette.

The opening play will be "Where the River Shannon Flows," a re-written version of "Peg o' My Heart." This is the seventeenth annual tour of the Harley Sadler company.

CONCERNING OLD AGE PENSIONS

AUSTIN, Dec. 9. — State Auditor Orville S. Carpenter, recently named Executive Director of the Old Age Assistance Commission effective February 14, declared this week that no one, regardless of race or color, would be discriminated against, and stated that old people will be able to get pensions without assistance from agents.

"Many inquiries regarding our policy toward negroes and Mexicans have been received. Inquirers have asked whether or not members of these races should receive the same amount of pension as members of other races. We want it clearly understood that there will be no discrimination against anyone because of race or color," Mr. Carpenter declared.

"No attorneys, unofficial agents, or firms will be needed to help old people obtain pensions. Applications will be handled through local agents. These have not been named.

"Old people will be able to get their pensions July 1, 1936, if funds are available. Application forms will be prepared February 14, 1936, and will be given to local agents. All applications will be handled through local men; however, the law provides that an applicant can appeal to the Commissioner is he or she is turned down.

"Pensions will be given those who are entitled to them if and when funds have been provided. The new law does not go into effect until February 14," State Auditor Carpenter explained.

Mr. Carpenter expects to visit Washington this week and have the Texas pension law approved by the Social Security Board. From Washington he will travel to New York and study the state pension system there, which is the largest and one of the oldest systems in the United States.

Mr. and Mrs. Marcus Crow of Big Spring, are at the home of their parents, Mr. and Mrs. Judge Crow, south of Boyd Chapel for a few days, letting their newest son "grow up a bit." The youngster arrived at the Hamlin Hospital on Dec. 3. Mrs. Crow is a sister of Miss Myrtle Lee Cohorn, head nurse at the hospital.

PIED PIPERS OPEN BASKETBALL SEASON

The Hamlin High School Pied Pipers opened their basket ball season with a bang the past week, running away with the Lueders invitation tournament. Hamlin won four games. Hamlin 38, Old Glory 21; Hamlin 50-Sunset 20; Hamlin 17-Anson 3; and Hamlin 35-A.C. C. Academy 12.

While the boys were getting the first place cup at Lueders, the Junior boys opened their season auspiciously by bringing back the Consolation Cup from Swenson. The scores were: Swenson 16-Hamlin 13; Hamlin 50-Aspermont 13 and Hamlin 28-Girard 14.

Tuesday night the Pipers beat Abilene High School at Abilene 32 to 7. The Hamlin second team beat the Abilene second team 31 to 16.

Abilene will play Hamlin a return game in Hamlin Thursday night, Dec. 19, at 7:30 P. M.

Dec. 20 and 21 a basketball tournament from rural towns will be held in the Hamlin gym. This is for schools who do not play football. Four team trophies will be given away along with numerous individual awards.

THE MILLIONAIRE crop for one blame England and France from 1934, according to reports, say there were but 32 persons in all America's 130 million in 1934 who "reported" an income of one million dollars or more. But in 1929, the year the depression started, there were 531 in that crop. Think of it. Five hundred thirty-one persons receiving in one 12 months a million or more. Then perhaps the millionaire crop for 1928, 1927, and further back was as large. Is there any wonder a depression came? Taking 32 from the 531 and you have the number of hit dogs who are howling at the New Deal. According to all laws of reason not even one person in boom days would have a net personal income of ONE MILLION dollars, to say nothing of 531 persons. If the enormous profits through shady manipulations result in centralizing the money of the nation in so few hands—expect a depression or something worse.

—AND—

THE U. S. has been at war for six years, a war that does not make more millionaires, but one where millionaires pay back the unreasonable profits of uncontrolled privileges of a few years ago. The war is NOT over. . . . A continuation of re-organization of human efforts must go on to meet the machine age and science.

WAR: So far the Herald has had nothing or but little to say of the "War" now raging in the secluded corners of Ethiopia. Some may be inclined to think this "war" a small one—and it may be—but even a small war is a terrible thing—more especially if a people must fight to maintain their independence; if a people must fight to keep from being enslaved. Is the whole Country of Ethiopia worth the life of even one Ethiopian lad? No. But who would say to a people, "Don't fight." How would any present day American like to hear some one say—the Colonists should not have risk their lives—given their lives, and that there should never have been a "Boston Tea Party"—"A Battle at Bunker Hill and Concord," yet they did do that very thing and a great nation was born.

The situation now in Europe is that a deadly fear reigns in every Capitol—eternal fear. But will "fear" rule and cower a people? In our own America there are those who would go out and rob, kill, burn and take—that was recognized in an ancient day by nations and in this modern and enlightened 1935 Italy seems to be the robber and the killer, the would taker—FEAR—certainly there is fear in every mother's heart—a fear similar to that when her son engages himself to maintain civil peace, to run down a hi-jacker-killer. It is the same idea in war. Is the world going to bow to the feeling of fear and stand still while a great "bully" takes the blood of a helpless people?

A plan of peace has been proposed—a plan to appease the bloody hands of Italy—a plan that means a kind of victory to a Dictator. Can any-

seeking a way to stop Italy and Ethiopia from warring? Their memory is too fresh from the trying to stop a "bully" in 1914. But again we all must drop back to the principle of FEAR. Fear might have allowed Germany to take not only Belgium, but France, Italy and England and on and on. Out of the World War came the League of Nations, one of the greatest ideas for coordinating the power of those who desire to be fair and just, that the minds and hearts of man has ever framed for its own protection. Will the League of Nations work? Only if FEAR does not rule. The English-French plan to humor Mussolini is not pleasing to the smaller nations in the League, and there is a reason. If Mussolini can come home with "his chest out," what security can any smaller country feel. Maybe he or some other dictator Bully would like to take a piece of some other small helpless country. The Robber would still be at large. Fear should not yield when a great principle is at stake. A fearful officer is not worth a "cuss." On with a war if it means security—world-wide.

JAPAN is trying to tell the United States and England that she (Japan) is going to build a navy as big as anybody's, and the two big boys won't believe her.

You had better believe her and let it go at that. We have heard of little fellows trying to imitate big boys before. What's the use in having a big navy unless you want to use it on somebody? What's the use of having a treaty or covenants—if they get in the way of doing as you please, treat them as "a scrap of paper." Let Japan have her navy—who is to say how much and how big anything she wants and can create, shall be? If Japan can build bigger, faster, and longer shooting ships than the United States or England or somebody else, then the quicker the best shooter draws the sooner a Naval Building program can be settled. Agreements may give hope but the power to enforce at the point of steel is the only thing that counts in the long run.

BRUNO HAUPTMANN is the mystery of the age. A few really believe he is the cold, cruel creature who climbed the ladder, took the baby and later killed it. A few people believed Hauptmann received a genuine American trial of justice and fairness. Hauptmann's chapter seems near an end. Back of all his connections with the ransom money, there is a mystery yet to be solved or if his death comes first, perhaps nothing else may ever be known. Is there something about to come to the surface before the electric current ends the chief actor. It looks that way NOW.

Fraternity is the reciprocal affection, the sentiment which inclines man to do unto others as he would that others should do unto him.

ANSON PEOPLE INVITE YOU

TO "COWBOY'S CHRISTMAS BALL" DECEMBER 20

About 50 years ago Anson was the scene of the old-fashioned Cowboy Christmas Ball. To perpetuate this old custom, the people of Anson, the modern Anson is to stage their SECOND "Cowboy's Christmas Ball."

THIS YEAR ON DEC. 20

The sponsors say they will reproduce this as near as possible on Dec. 20 in the High School Gym in Anson. It will be colorful, almost as the old days—except the "whiskers and mustache."

The Cowboy's Christmas Ball that Larry Chittenden portrayed in his well known poem, is one of the happy memories that now lingers in the minds of many of the older people of this section, who were participants in that gay, festive occasion.

It is the hope of those who are sponsoring this Cowboy Christmas Ball, that this bit of "yesterday's gaiety" may be preserved for and enjoyed by the youth of our country. They invite you to come, and help make it a success.

You have indeed been loyal and kind to us during the past 16 years. We have sincerely attempted to not betray that confidence and have tried to be worthy of your trust by bringing your community each year a series of clean, wholesome plays and the best in vaudeville and music. We have brought many of the latest stage successes and vaudeville that has played the larger circuits, a variety in the way of good music. You have always seemed appreciative of our efforts.

On this, our 17th triumphant tour, we believe that we have assembled the greatest show that we have ever carried. Especially from a standpoint of variety. We have good plays, a feature orchestra and our vaudeville consists of musical, dancing, singing, male quartette and many novelties, all of these are brought to you at popular prices.

Lady's Painful Trouble

Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'doleless.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." ... If Cardui does not help YOU, consult a physician.

THE CLOSED WINDOW-

Do you shut out healthful fresh air from your home during winter months by keeping all windows tightly closed? You wouldn't consider doing such a thing in summer, now would you?

It is especially important to keep the air of your home fresh and pure during winter. Under the artificial conditions of winter indoor life, heavy demands are made on the oxygen supply of your home. In the first place an adult breathes about 360 cubic feet of air every 24 hours. In addition to this, the heater in the room takes a large supply of oxygen from the air because fuel will not burn without oxygen. Both the heater and the occupants of the room are consuming the air. Therefore, it becomes doubly important during winter to introduce a reasonable amount of fresh air from the outside so that the air you breathe will be pure as well as warm and comfortable. Incidentally, fresh air is easier to heat than "stale" air.

When open flame heaters are used exclusively it is of utmost importance to have adequate ventilation and a circulation of heated air, if healthful conditions are to exist. Proper ventilation should be provided through window openings, and pure warmed air should be kept circulating through connecting doors of all rooms. America's Public Health Enemy Number One, the common cold germ, finds a fertile field in an inadequately heated and poorly ventilated home.

A simple method of providing a constant circulation of fresh air is to open the window nearest the heater in each room slightly at the top and bottom. This permits fresh, oxygen-laden air to replace the products of combustion caused by breathing and by the fuel burning in the room. The overheated air which rises to the ceiling circulates to other parts of the room and a more healthful air condition is the result.

Guard the health of your family this winter with proper ventilation and adequately warmed fresh air in every room in the house. It's a simple precaution in combating the common "cold".

... Community Natural Gas Co.

Don't gamble with a "cold"! Consult your family doctor before it has an opportunity to undermine your health. Tune in each Thursday night at 6:30, WFAA-WBAP, for helpful information from a leading physician that will assist you to guard against the common cold germ.
